

WasteMET Asia

24 - 25 November 2016

China Import and Export Fair Complex
Guangzhou, China

**International Waste Management
& Environmental Technology Conference**

www.wastemet.asia

Asia is home to the **world's fastest growing cities**. With the higher generation of waste due to the region's increasing urbanisation, the **global search for sustainable and cost-effective solutions** has never been more pressing.

Estimated expenditure on solid waste management in Asia

US\$50 billion

by Year 2025

Most Asian towns and cities use open dumps and only about

10%

of solid waste ends up in properly engineered and managed landfills

90%

of South Asia has no access to solid waste management facilities

In some Asian cities, expenditure on municipal waste reaches

40%

of the municipality's total operating budget

23%

of the population (850 million people) in Asia Pacific region practise open defecation

Source: World Bank Study

ABOUT THE EVENT

This specially curated conference will bring together 9 waste management associations from Asia Pacific Waste and Environment Alliance (APWEA) – that includes China, India, Indonesia, Malaysia, Philippines and Singapore, as well as Australia, New Zealand and South Korea which will be joining APWEA officially at this event. This is an opportunity to meet with industry experts, government agencies and practitioners of the solid waste management and recycling industry to foster new partnerships, learn new technologies and innovations and reinforce growth in Asia.

WasteMET Asia is an ideal platform to discuss current challenges and opportunities, new ideas and processes among key industry players in building a sustainable future by promoting policies, innovative technologies and solutions.
